

Rosemere Cancer Foundation

More than 9,000 people face a diagnosis of cancer in Lancashire and South Cumbria every year. Effective treatment is a major priority for the NHS but it is expensive and there is little left over for additional facilities and equipment that may make all the difference to the treatment experience of patients and their families.

The Rosemere Cancer Foundation exists to raise funds for those things that fall outside the scope of the NHS, helping to deliver world class cancer treatment for the people of Lancashire and South Cumbria. Based at the Rosemere Cancer Centre at Royal Preston Hospital, Rosemere funds additional services and facilities at cancer units right across the region. Rosemere also invests in local cancer research undertaken to give local patients early access to new treatments and techniques.

Wherever patients from Lancashire and South Cumbria are treated, there are projects funded by the Rosemere Cancer Foundation which are making a real difference to their comfort and quality of treatment.
